SUMMARY

Full Stack PHP Developer with 7 months of professional experience at Clock Softwares, following a 3-month internship, specializing in developing scalable web applications and e-commerce platforms using PHP, MySQL, JavaScript, HTML5, CSS3, Bootstrap, and AJAX.

Experienced in designing complete web solutions from requirement analysis to deployment, including custom admin panels, authentication systems, payment gateway integration, inventory management, and responsive user interfaces. Successfully delivered multiple live client projects across event management and e-commerce domains while collaborating directly with clients to transform business requirements into production-ready applications.

EDUCATION

K.P.B. Hinduja College of Science & Commerce

Bachelor of Computer Applications (BCA), Yashwantrao Chavan Maharashtra Open University | 2022 – 2025

EXPERIENCE

Full Stack PHP Developer | November 2025 – June 2026

Clock Softwares

- Developed scalable web applications using PHP, MySQL, HTML5, CSS3, JavaScript, AJAX, and Bootstrap.
- Designed and developed complete e-commerce platforms with shopping cart, wishlist, secure checkout, order management, coupon systems, and customer dashboards.
- Built dynamic admin panels for managing products, categories, inventory, customers, orders, banners, and website content.
- Integrated Razorpay payment gateway and implemented secure OTP-based authentication using SMS and Email verification.
- Developed reusable backend modules following MVC architecture and optimized SQL queries for better application performance.
- Worked closely with clients to gather requirements, implement new features, fix production issues, and deploy updates.

PROJECTS

ShopatBMS – Headless E-Commerce Platform | Company Project

Technologies: PHP • MySQL • HTML5 • CSS3 • JavaScript • AJAX

- Developed a modern Headless E-Commerce Platform with a customizable storefront.
- Built complete Product Management and Inventory Management modules.
- Developed Admin Dashboard for managing products, orders, customers, coupons, banners, and analytics.
- Implemented Wishlist, Reviews, Newsletter, Secure Checkout, and Coupon Management.
- Created dynamic branding options allowing logo, color theme, fonts, homepage sections, and layouts to be customized without code changes.
- Optimized website performance and responsive user experience across desktop and mobile devices.

FREELANCE CLIENT PROJECTS

Gen Alpha — Corporate Web Application & Custom CMS | Ongoing Project

Technologies: React 19 • Vite • Tailwind CSS • JavaScript • Axios • PHP •

MySQL • REST API • JWT • GSAP • Framer Motion

- Developing a modern corporate web application using a decoupled React frontend and custom OOP PHP REST API backend.
- Built custom REST API architecture with dynamic routing and support for GET, POST, PUT, and DELETE operations.
- Implemented JWT-based authentication and protected API endpoints for secure admin operations.
- Developing a custom CMS/Admin Panel for managing services, projects, brands, news, media, and website content.
- Integrated MySQL database using PDO and prepared statements for secure database operations.
- Implemented media management functionality for uploading, previewing, and deleting website assets.
- Developed interactive UI animations and smooth scrolling using GSAP, Framer Motion, and Lenis.
- Configured responsive frontend architecture using React, Tailwind CSS, React Router, and Axios.

Tathshri — Event Management Website | Ongoing Project

Technologies: PHP • MySQL • HTML5 • CSS3 • JavaScript

- Developing a dynamic Event Management Website for managing and showcasing events.
- Building dynamic Event Listing and Event Management modules.
- Developing Gallery Management System for managing event images and media.
- Creating Contact & Inquiry Module for handling customer inquiries.
- Developing a CMS-based Admin Panel for managing website content and events.
- Implementing responsive UI with SEO-friendly pages across desktop and mobile devices.
- Optimizing website performance and improving overall user experience.

Metals Mantra — E-Commerce Website

Live Website: <https://www.metalsmantra.com/>

Technologies: PHP • MySQL • HTML5 • CSS3 • JavaScript • Bootstrap

- Developed complete e-commerce functionality.
- Built Product Catalogue and Category Management System.
- Integrated Shopping Cart and Wishlist.
- Developed Checkout and Payment Workflow.
- Implemented Order Management and Inventory System.
- Optimized image processing and website performance.
- Built dynamic Admin Panel for complete website management.

TECHNICAL SKILLS

• HTML5 • CSS3 • JavaScript • PHP • MySQL • XAMPP • Bootstrap • GitHub • REST API Integration • Postman

CURRENTLY LEARNING

• Python • React.js • Node.js

CERTIFICATIONS

• MS-CIT • Node.js & React Development • Web Designing & PHP Development

KEY ACHIEVEMENTS

Successfully delivered 3+ live client websites. Developed a complete Headless E-Commerce Platform. Built scalable Admin Dashboard systems. Implemented Razorpay Payment Gateway integration. Developed secure Authentication & OTP Verification systems. Worked directly with clients throughout the complete software development lifecycle. Delivered production-ready web applications with optimized performance and responsive design.

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Time Management
- Analytical Thinking
- Client Communication
- Continuous Learning
